## WORK OF LIGHTNING

C. H. C. Beakes' Barns Struck and Set on Fire.

## A YOUNG MAN'S NARROW ESCAPE.

Struck by the Bolt Which Killed Horses Near Him—Many Cows Got Out of the Burning Building—Losses and Insurance.

The barns on the C. H. C. Beakes' farm about a mile north of this city, and leased by William H. Decker, were totally destroyed by fire resulting from a lightning stroke, Sunday night, at 6:30. The bolt passed down through the barn where a young man, Augustus Gregory, was watering two horses, one from each of Mr. Decker's teams.

The horses were killed instantly and young Gregory was knocked senseless. He recovered, however, and was able to crawl out of the barn before the fire reached him.

Chief Latham, of this city, who was present at the fire, and who assisted in saving the house, states that six horses, forty-eight cows and a few farming utensils were taken out of the burning buildings. The buildings destroyed were four barns 100 x 31, 60 x 34, 50 x 34, 90 x 21, a wagon house 20 x 30, granary and an ice house.

Sixty tons of hay and about 100 fowls were also burned, as were the harnesses of the horses killed by lightning.

The neighbors and others performed a man's service in saving the buildings. The following insurance on the property was written by E. E. Conkling in two companies.

For Mr. Beakes—Barns, \$3,700, granary, \$500; wagon house, \$150.

The first shower extended over a limited area west of this city, but it increased in volume as it passed to the eastward and spread out to the north and south and ran full from it in great quantities.

North of this city where the second shower was heaviest the downpour of rain lasted much longer than it did here. The hail that came from this cloud seemed to fall in streaks, having been much heavier in the southern than in the northern part of the city. In the country there were localities in which no hail fell, while on either side of them the hail stones rattled down in very lively style for several minutes.

For Mr. Decker—Wagon and utensils \$1,100, produce, \$750 fowls, \$50, and on each of the dead horses \$150.

As the first shower was passing over Phillipsburgh a lightning bolt struck a corner of John Stans' house and ignited the building. A carpet and some lace curtains were burned and by the burning of the wires by which they were suspended several pictures fell from the walls. No other damage was done. Several persons were in the house, but they escaped injury though they were of course badly shocked and frightened.

## SLASHED WITH A RAZOR.

Old Brown Cut by David Warner—Two Versions of the Affair.

David Warner, a colored man who the police say has a bad reputation, was arrested Saturday night, charged with assault in the second degree in slashing Sidney Brown with a razor. Warner secured the services of Lawyer G. W. Powers and the case was set down for 1 o'clock, this afternoon.

There seem to be two sides to the case. The police say Brown, who has a shady reputation of his own, is trying to make himself, and that the Warner darkey is responsible for the trouble. Brown was cut slightly on both legs and in the side.

Warner's friends say that he had trouble with one of the Brown boys and that about midnight the rest of the gang set on him in Mrs. Daly's place on Fulton street.

## Whelmen Out in Force.

There was a great movement of whelmen, Saturday and Sunday. The trains were filled with them and in this city all of the hotels had a rush on that account. Twenty whelmen from Newburgh took in Midway Park. Scores of whelmen, heading for Milford and the Water Gap passed through town, some on Erie trains and some on their wheels.

## ITALIAN TRACK HAND KILLED.

Tried to Jump on a Moving Freight Train and Fell Beneath the Wheels.

An Italian employed on the Erie's section force in this city attempted to jump on a freight train, Saturday night, to ride to the gang's boarding cars at the Summit. He tripped over a rail and fell under the train, and the wheels passed over both legs below the knee.

He died at Thrall Hospital at midnight. The accident was witnessed by a number of people. One of them said to an Argus reporter that the Italian made the same attempt to board a train, Friday night, and failed. He was as clumsy as his class always are and when he made this second attempt everyone expected to see him go under the wheels.

With lunch pail in hand he began to run with the train at the James street crossing. He caught the handles of a coal car as he left the plank and stumbled over the rails lying beside the track.

In an instant he had been swum around and fell, his legs lying on the track. The wheels passed over one leg half way between the knee and the ankle and the other at the ankle. Then he rolled over out of harm's way and spectators pulled him beside the tower. His cries were pitiful, but he seemed relieved when a generous dose of brandy was given him by August Pfaff.

Dr. H. J. Powellson was first on the scene and examined the man, but on the arrival of the ambulance Erie Physician Schultz took charge. The man was moved to Thrall Hospital and the injured legs were amputated by Dr. Purdy, assisted by Dr. Schultz. About 11:30 he died, and his body was removed to Donovan's.

The Italian was No. 5,698 and his name was Amelio Cassese. He came to this country two years ago, but had been employed here but a short time. Only a few days ago he told the track foreman that his wife and four children in Italy were very poor and had written him to send them some money. He has a brother in Brooklyn, but nothing has been heard from him since word was sent of Amelio's death.

Coroner Decker will hold an inquest at Justice Payne's office, at 5 o'clock this afternoon.

## THE LAST SAD RITES.

The remains of Miss Addie Thompson, daughter of Mr. and Mrs. Harrison Thompson, of Wawayanda, were brought here from New York, by representative of F. O. The lot was draped with evergreens and covered by Mr. Rockafellow's water proof tent, which was used for the first time. There were a number of beautiful floral tributes, and the coffin was held in by roses, 500 being placed upon it.

AMOS M. RYERSON, JR.

The funeral of the late Amos M. Ryerson, Jr., was held at his late home in Deaton, at 2:30, Sunday, and was very largely attended. Services at the Deaton church were dispensed with on this account. Most of these roof fires were extinguished before much damage had been done, but it was only by constant vigilance and the hardest kind of hard work that the village was saved from destruction.

## FILTRATION PLANT.

Decided on by Water Board, Saturday Evening.

## CONTINENTAL CO.'S BID ACCEPTED.

Vote of Board Was Unanimous in Its Favor—Plant to Be Ready in Three Months—Payments to Be Made from Current Income.

The Water Board held two long sessions, Saturday, and when it had completed its work the question of filtered water for this city was settled and the plant will be in operation in about ninety days.

The first session was held at 4 o'clock, all of the members being present. After ordering 300 feet of four inch iron pipe laid in Beattie avenue in the place of a broken cement man the members went into a careful consideration of the filtration question. It was continued until 6:30 when an adjournment was taken. After reconvening the subject was continued until 9:30, when the following resolution was unanimously adopted:

Resolved, That the bid of the Continental Filter Company, of New York, for the construction of a filtration plant at Montauk Lake be accepted, and that the contract for the construction of the plant be awarded to said company, as per the plans and specifications furnished by the said company and that the city attorney be empowered to draw up a contract, covering the bonds and all agreements between the said company and said Water Board of the city of Middletown, and that the said filtration plant shall be completed in all respect and in operation in ninety days from the execution of the contract.

This resolution was carried by a unanimous vote and the board adjourned, happy that the matter is at last virtually ended.

The board will not announce, just yet, what the plant is to cost. Suffice it to say that the members are conservative, economical business men and the contract to be signed by them provides for easy payments from the receipts of the water plant, and the taxpayers will not be asked for anything for the carrying out of this very important work.

## VETERANS AT CHURCH.

Heard a Very Fine Memorial Address at the First Presbyterian Church.

A large delegation of the members of Gen. Lyon Post, Capt. Jackson Post and the Union Veterans' Union attended memorial services at the First Presbyterian Church, Sunday night. Seats were reserved for the veterans in the front of the center section of seats. The platform was attractively decorated with flowers, the stars and stripes and the British flag were draped from the choir rail, and on either side were placed the colors belonging to the organizations. Chaplain Winchester occupied a seat on the platform with Rev. David Winter and made the opening prayer.

The pastor took for his text "Fight the good fight of faith," and after welcoming the veterans gave them an inspiring, patriotic address, which will linger in the minds of all present for all time to come. His words met those of many of the veterans and fervent "amens" were heard.

The Argus would like to print the address in full, but lack of space prevents. Those who failed to hear it missed a treat, and those who did hear it went away prouder than ever that they were Americans and with great hopes for the future.

The choir sang sweetly, a quartette singing a selection in finished style. The congregation joined in singing "My Country 'Tis of Thee," with an enthusiasm which showed the effect of the address most forcibly.

## LIGHTNING, RAIN AND HAIL.

The Long Brought Broken by Two Pierce Summer Storms.

The first storm of Sunday evening was a peculiar one in some respects. For half an hour the thunder pounded and rolled west of this city, though the clouds in that direction were light and did not look as if they were laden with much rain or charged with much electricity. Lightning flashed across the sky, however, and the thunder grew nearer here, yet there was no other evidence of an approaching storm, for there was not even a puff of wind.

When the rain did come over the mountains in this direction its advance was very slow and the fall seemed to be light, but when the shower reached here the rain poured down in torrents, and in fifteen minutes a great deal of water fell.

There were but few heavy thunder claps while the storm hovered over the city, and no damage was done in the city limits except the burning out of a few telephones.

The flames and smoke from the burning barn on the C. H. C. Beakes place, west of the city, were seen by many, and from some parts of town it seemed as if the blaze was within the city limits.

About 3:30 another storm passed over the city. It was accompanied by thunder, lightning and very large hail stones, which luckily were not numerous enough to do any damage.

The lights at Midway Park were partially extinguished by lightning, but no other damage was done there.

This storm was particularly heavy north and east of this city. The telephone and telegraph lines were down in places, especially along the Hudson between Newburgh and Poughkeepsie.
